

Watermain Project Notice

Coming Soon to South Juanita Neighborhood

Feb 13, 2013

Planning

Design

Construction

Complete

- **Replace watermain**
- **Increase efficiency and reduce maintenance**
- **Resurface roadway**

Thank you in advance for your patience and cooperation as we make improvements to your neighborhood.

What: The Watermain Project replaces an aging cement pipe with a new iron pipe along NE 109th Street and NE 108th Street, between 104th Avenue NE and 106th Avenue NE. See map on reverse side.

Why: The extension of new watermain along NE 108th street will provide a loop connection of these watermain, allowing for greater flexibility in maintaining water service in the area. This work will help lower on-going maintenance costs and benefit the residents through increased fire flow and improved system reliability. (See map on back).

When: The City's contractor, Shoreline Construction Company, will begin construction in March with expected completion of the project in July 2013. Typical hours of construction will be Monday through Friday 7:00 a.m. to 6:00 p.m.

What to Expect:

Parking - expect restricted parking along the roadway. No-parking signs will be posted 24 hours in advance of all parking restrictions.

During construction - there may be inconvenience associated with driving through the work zone, therefore flaggers will be present to direct traffic. Emergency vehicle access will be maintained throughout the construction process.

After hours - the contractor is required to back fill and/or cover their work at the end of each day so there will be no open trenches left over night.

Water service - residents will be given two days notice prior to any planned water system shutdowns.

Please contact us should you have any questions or concerns. For the latest project information, go to: <http://www.kirklandwa.gov> and search for Watermain System Improvement Project.
